## About this Qualification Specification

This Qualification Specification contains all the mandatory units and assessments you will need to complete as part of the qualification. As well as the mandatory units there is a choice of 'optional units' which form part of the qualification. These are available on our website and cachezone. Your tutor or assessor will either supply you with copies of your chosen units or direct you to the relevant page on the website so you can download them. This Specification also contains extra information for your tutor or assessor.

## How the qualifications work

These qualifications are made up of units each representing a small step of learning. This allows the qualifications to be completed at your own pace.

All of the units achieved can be 'banked'. This means that if you want to take another qualification which includes the same units you do not have to take them again.

Each unit has:

- a **level** - *shows how difficult it is*
- a **credit value** - *one credit represents about 10 hours' work*
- a **unit aim** – *explains what is covered in the unit*
- **learning outcomes** – cover *what you need to do (skills) or what you need to understand (knowledge)*
- **assessment criteria** – *what you need to show (evidence)*

Each learning outcome is linked to a number of assessment criteria. Evidence must be provided for all the assessment criteria to gain the unit.

<b>Learning outcomes</b> The learner will:	<b>Assessment criteria</b> The learner can:	<b>Evidence record</b> e.g. page number & method	<b>Assessor judgement achieved</b> Initial and date
1. Understand why effective communication is important in the work setting.	1.1. Identify the different reasons people communicate.		
	1.2. Explain how communication affects relationships in the work setting.		

Example shows how outcomes and criteria are laid out in the Unit Assessment Records (UARs) in Section 3

## Understanding learning outcomes

There are two main types of learning outcome:

- **Skills** that can be performed
- **Knowledge** that can be learnt.

Sometimes they can cover a combination of the two.

### Competence / Skills based learning outcomes:

- generally begin with 'Be able to' and the assessment criteria usually show that the evidence must be observable
- are about being able to perform a variety of different tasks as part of your work role **within** a real work environment.

### Knowledge based learning outcomes:

- generally begin with 'Know', 'Understand' or 'Know how to' and the assessment criteria will reflect that evidence can be recorded in ways other than observation, although observation remains a valid method (however, some learning outcomes could be purely knowledge based and do not need to be in the context of a work role).

For your convenience, Knowledge-only units are indicated by a lightbulb in both the Unit Achievement Log and at the top of the units.

If a unit is not marked with a lightbulb, a unit has some Skills/Competence component(s).

## **Section 4: Assessment and quality assurance information for tutors and assessors**

## Assessment guidance

A recommended range of assessment methods has been identified for the units in this qualification. This gives the opportunity for different learning styles and individual needs of learners to be taken into account.

### Recommended range of assessment methods for this qualification

One of the following assessment methods can be chosen to produce evidence.

#### For Competence / Skills and Knowledge learning outcomes:

- Direct observation of learner by assessor
  - by an assessor who meets the relevant Sector Skills Council's or other assessment strategy/principles and includes inference of knowledge from this direct observation of practice
- Professional discussion
- Expert Witness evidence
  - when directed by the Sector Skills Council or other assessment strategy/principles
- Learner's own work products
- Learner log or reflective diary
- Activity plan or planned activity
- Observation of children, young people or adults by the learner
- Portfolio of evidence
- Recognition of prior learning
- Reflection on own practice in real work environment
- Oral questions and answers<sup>1</sup>

#### For knowledge only learning outcomes:

- Written and pictorial information
- Scenario or case study
- Task set by CACHE (for knowledge learning outcomes)
- Oral questions and answers
- Assessment method devised by Centre and approved by CACHE

If you are proposing to use an assessment method that is not included within the recommended list you should contact your Centre Quality Advisor with full details of your proposed method. It will need formal approval from us before it can be used.

A key to the recommended assessment methods is included in "*How to ... A Guide to Assessing CACHE QCF Qualifications*", which can be found on cachezone.

---

<sup>1</sup> Oral questions and answers may be used to evidence understanding of skills based learning outcomes where assessment criteria start with 'Explain' or 'Describe' (or similar words to demonstrate understanding). These can be assessed by the **assessor who is assessing the skills competencies** as it relates to evidence from the workplace.

## Assessment strategies and principles relevant to this qualification

The units we offer have been developed in line with the specific **assessment strategies or principles** of different Sector Skills Councils (SSCs) or by us where there is no SSC lead.

The key requirements of the assessment strategies or principles that relate to units in this qualification are **summarised** below. More detailed strategies or principles can be found in *the "How to ... A Guide to Understanding the Requirements of Assessors and Internal Quality Assurers for CACHE QCF Qualifications"*.

The Centre needs to ensure that individuals undertaking assessor or quality assurer roles within your Centre conform to the SSC assessment requirements for the **unit** they are assessing or quality assuring.

### Skills for Care and Development Assessment Principles / Teaching Agency (formerly Training and Development Agency for Schools) Assessment Principles / CACHE Assessment Strategy

#### Knowledge learning outcomes

- **Assessors** will need to be both occupationally knowledgeable and qualified to make assessment decisions
- **Internal Quality Assurers** will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

#### Competence / Skills learning outcomes

- **Assessors** will need to be both occupationally competent and qualified to make assessment decisions
